Additional Temporary Draftsmen.

Applying for sanction for the retention of the three
in the Land Records Tahsildar's office for another
year.

South Kanara Collector's Office,
Mangalore, 19th May 1920.

From

R. H. Ellis, Esquire, I.C.S.

Collector of South Kanara.

To

The Secretary to the Board.

Revenue Settlement, Madras.

Sir,

There are four Draftsmen - one permanent and three temporary - working in the Land Records Tahsildar's office of this district. The retention of the temporary Draftsmen till 31st May 1920 was sanctioned by Government in their orders Nos. Mis. 1621, Revenue, dated 9th July 1919 and Mis. 2289, Revenue, dated 6th October 1919, on account of the heavy work in the Land Records Tahsildar's office owing to the large number of sub division records received for scrutiny. The work continues to be heavy and the Land Records Tahsildar says that their retention is absolutely necessary. I have, therefore, the honour to request that the Board may be pleased to obtain the sanction of Government for the retention of the three additional Draftsmen for a further period of one year from 1st June 1920. I propose to allow them to continue in office in anticipation of sanction.

I have the honour to be,

Sir,

From (Name) H. A. Watson. Esq. I.C.S.(Designation) Director of Land Records.

M a d r a s.

To The Secretary to the Board,

Revenue Settlement,

M a d r a s.

Sir,

frp2-3ct In reply to Board's Reference No. G1.1444/20-3, dated 7th June 1920, I have the honour to state that from the information available in my office the figures for subdivisions sanctioned and mapped in South Kanara in 1918-19 and 1919-20 are 16,432 and 11,840 sanctioned and 9,981 and 9,807 mapped. the balance of subdivisions on 31st March 1920 being 12,591. Since 1st June 1918, 4 draftsmen (1 permanent, 3 temporary) have been employed and since that date the scrutiny of subdivisions in Land Records Tahsildar's Office ordered in B.P. No. 87, dated 27th April 1917 has been enforced. The work done in the two years does not appear to be adequate and I am

am making enquiries as to the slow progress, and will report later.

In the meantime, however, I would point out that the balance of subdivisions is large and that if 12,000 subdivisions are sanctioned this year, the total number to be dealt with will be over 24,000 which should provide sufficient work for 4 draftsmen for a year, assuming that the number pending with Revenue Inspector at the end of the year will not be unduly large.

I have the honour to be,

S i r,

Your most obedient servant,

Director of Land Records.

RESOLUTION.

Gl No. 1644/20-4, dated 25. 6. 1920

In these orders nos 162 Revd, 9-7-19 and 2289 Revd 8-10-19 Govt sanctioned the retention till 31-5-1920 of the three temporary drafts-
men employed under the Land Records Dept, South Kanara to deal with the large number of subdivisions received for scrutiny and incorporation. As the work continues to be heavy the collector requests sanction to the retention of the three temporaries.

men for a further period of
 one year from 1-6-1923
 2/ Independently of old
 arrears, 16,432 subdivisions
 were sanctioned in 1918-19
 and 11,840 in 1919-20, while
 the number mapped during
 the two years were 9,981
 and 9807 respectively. The
 D & R reports ^{chain} on 31-3-1920
 there remained 12,591 sub-
 divisions to be attended to
 and if roughly 12,000
 are taken as the number
 likely to be sanctioned
 during the current year
 the work for the year will be
 the 24,591 subdivisions
 3/ Since 1-6-1918 four
 draftsmen (one permanent
 and three temporary) have
 been employed and under
 G.O. no 1125 (Revd) 19-4-1917,
~~since the same date~~, they
 are also attending to the
 sanctioning of the subdivisions

The Director doubts whether
 the outturn during the last
 two years was adequate
 and promises to submit
 a report on the point after
 making further enquiries
 meanwhile the ~~balance~~^{gross} of
 subdivisions including the
 probable number that may
 be sanctioned during the
 year but excluding the
 number pending with the
 Revenue Inspectors will be
 very heavy. The Director
 considers that there will be
 sufficient work for four
 draftsmen for another year.
 The Board agrees with him
 and accordingly requests
 that Govt. will be pleased
 to sanction the retention
 of the three temporary men

With reference to Board's Proceedings Ref.No. G1.

1444/20-4, dated 25th June 1920. I have the honour to state

that I have examined the question of outturn during my
present tour in South Kanara.

Conditions in South Kanara are different from those

obtaining in other districts and standards applicable else-

where must be reduced for South Kanara. In most districts

subdivisions sanctioned are subdivisions of existing survey

fields or subdivisions, and in many cases the additional

survey is a single line. Neither the scrutiny nor the map-

ping of the subdivision record in such a case requires

requires much time: while the work done counts as ~~two~~ subdivisions scrutinised and mapped

In South Kanara on the other hand most of the so-called subdivisions are new fields formed out of large waste blocks, and the subdivision record is the map of a whole field. It is obvious that the scrutiny, check of plotting, area computation and plotting of a whole field take a good deal of time, and when finished, the work done counts only as one subdivision.

In addition the new fields formed have to be plotted into the maintained copy of the village map and also into sketches of the big waste blocks put up in the taluk F.L. Books to show where the new fields lie.

From a careful calculation, I think, that the scrutiny and plotting of 200-250 subdivisions a month is the most that can be expected from a draftsman in South Kanara and I am satisfied that the outturn in the past 2 years has been satisfactory.
